Details

Description

The Stressless® Sky mattress easily adapts to your individual needs, thanks to its innovative AdaptiveZones™ pocket springs and NordicSoft™ foam. All the mattress layers are carefully calibrated to provide perfect sleep comfort and quality, regardless of body shape and comfort preferences. The base mattress is made with high quality individual springs, cradling your hips and shoulders. The Cloud layer is exclusively made in Norway and add even more comfort and support.

The cover on the side panel is made from a wool blend and is fire resistant without the use of any chemicals. **It provides breathability, strength, and warmth without being hot.** Wool does not provide a breeding ground for bacteria and is naturally self-cleaning. The leather handles on the sides ensures ease of transportation.

Introducing the Stressless® Sky mattress

The Nordic way of life is all about finding harmony with nature and promoting good health. The Stressless® Sky

mattress is designed to provide a restful night's sleep, and give you the energy to take on the day. Made in Norway with quality components, our dedication to quality craftsmanship is evident in every detail of the Stressless® Sky. Our goal is to provide a long-lasting and restful sleep experience for our customers.

The benefit of uninterrupted sleep

Your body is an amazing instrument with the ability of sleep adjustment. If the body is disturbed, you wake up. Our most important task is to create good conditions for uninterrupted sleep throughout the night. We have learned that the ideal sleeping conditions depend on a balanced combination of support, pressure relief and ventilation, maintained through all the phases of sleep.

AdaptiveZone™ spring system for optimum support and pressure relief

The Stressless® Sky mattress easily adapts to your individual needs, thanks to its innovative AdaptiveZone™ pocket springs and NordicSoft™ foam. All the layers in the mattress are carefully calibrated to provide perfect sleep comfort and quality, regardless of body shape and comfort preferences. The support layer is made with high quality individual springs for perfect spine alignment.

Treat yourself to luxurious comfort

By choosing the Stressless® Sky mattress, you are investing in your long-term health and ensuring that you have the energy and focus to take on the day ahead. The Stressless® Sky mattress can be purchased with an extra Plush layer to elevate your comfort. Experience the same luxurious comfort that you know and love from the legendary Stressless® recliners, now in a mattress form.

Better sleep is an investment in health

Quality sleep can improve memory, reduce stress levels, and boost immune function. Investing in a good night's sleep is one of the most important decisions you can make for your health and well-being. The Stressless® Sky mattress is designed to provide unparalleled comfort and support, allowing you to wake up feeling refreshed and rejuvenated.

80 years of sleep expertise

With over 80 years of experience in the mattress industry, Ekornes is excited to bring its proprietary and innovative comfort components to the American market with the Stressless® Sky. Our designs are based on decades of research on sleep comfort, and have won the hearts and dreams of Nordic customers since 1937.

Functions

1. Cloud layer

The Cloud layer is a hygienic and highly elastic knitted fabric with excellent ventilation properties. The elastic material enhances the softness of the NordicSoft™ foam, adapting to the body contours for an instantly comfortable sleep surface.

2. Plush layer

The Plush layer is an optional layer for those who would like to indulge in extra plush and embracing sleep comfort. This is obtained through a generous layer of our breathable NordicSoft™ foam, reinforcing the feeling of weightlessness and instant comfort.

3. Support layer

The support layer is equipped with high-quality pocket springs with AdaptiveZones™. The mattress has five zones that provide excellent support for spine alignment whilst cradling your shoulders and hips. The spring unit is enveloped in a layer of our elastic and supportive in-house developed foam.

- Soft embracing comfort
- Cloud layer 3" NordicSoft™ foam
- Plush layer 4" NordicSoft™ foam
- Support layer 8" Pocket springs
- 5 AdaptiveZones™
- Mattress height: 15"
